# Categories, Entry Fees and Judging Allocation 2022

Please ensure that you check your Electoral Roll carefully (only include the number of adults eligible to vote) and enter the correct category based on the electoral role of your entry and **not your population**. The Electoral Roll can be obtained from your local council (a list of wards included in your entry should be submitted with the entry form). Although the sub-divisions of each category are charged at different amounts the category will be judged altogether rather than each sub-division
